NOTICE OF PROPOSED SIGNIFICANT MODIFICATIONS TO AN EXISTING PART 70 AIR QUALITY (TITLE V OPERATING) PERMIT

**WEYERHAEUSER INDUSTRIES, INC. (MARLBORO PAPER MILL)
585 WILLAMETTE ROAD / SOUTH CAROLINA HIGHWAY 912
BENNETTSVILLE, SOUTH CAROLINA
(MARLBORO COUNTY / REGION 4 FLORENCE EQC OFFICE)
AIR PERMIT NO. TV-1680-0043**

Based on negotiations between the facility and the Department, and documented by order of the South Carolina Administrative Law Court on August 8, 2005, DHEC's BAQ Office has prepared a Draft Revised Title V Operating Permit and Engineering Calculation (Green) Sheets that incorporate various significant, minor, and administrative modifications to the Title V Operating Permit issued to the above-referenced facility on December 31, 2002. If approved, the draft significant modifications will allow the facility to:

- ?? Change the Particulate Matter (PM)/Particulate Matter less than 10 Microns in Diameter (PM10) test method used on the total reduced sulfur (TRS) compound incinerator scrubber from the United States Environmental Protection Agency (EPA) Method 5 to EPA Method 5B, as well as to use periodic source testing instead of parametric monitoring for required periodic monitoring. The proposed modifications will also be incorporated into Prevention of Significant Deterioration (PSD) Construction Permit No. 1680-0043-DG issued to this facility on December 10, 2002.

If approved, the draft revised Title V Operating Permit will enable this facility to continue to operate as a major source in accordance with SC DHEC Regulation 61-62.70 "Title V Operating Permit Program." All emissions limitations and conditions contained in the draft revised permit have been written to ensure that this facility operates within the requirements of the Title V Operating Permit Program for the State of South Carolina. The draft significant modifications are tentative and open to comment from the public, affected states, and the EPA.

Interested persons are invited to review the draft revised permit, engineering calculation sheets, and other materials maintained and used by DHEC in preparing this permit, and submit written comments (including the permit number and facility name), by October 7, 2005, to the attention of Mr. J. Robert Brown at the above DHEC address. All comments received by October 7, 2005 will be considered when making a final decision regarding the draft significant modifications. Where there is a significant amount of public interest, DHEC may hold a public hearing to receive additional comments. If a public hearing is requested and held, notice will be given in this publication thirty (30) days in advance. Any request for a public hearing should be made in writing to the attention of Donna Moye at the above DHEC address or by e-mail at: moyedd@dhec.sc.gov.
